

## Lesson 6: How Was It Made?

### OPENER

- ❖ Examine each of the 4 types of material at your table with your “naked eye” and with a hand lens. How would you describe each one?
- ❖ What are the similarities and differences between them?
- ❖ How do you think each one was made?

## Lesson 6: How Was It Made?

### EXTENSION

- ❖ Focus on and draw the ripped edge of the paper. Describe how this might help you to figure out how paper is made.

## Lesson 6: How Was It Made?

### **HOMEWORK**

- ❖ Study your microscope study guide and the procedures for focusing the microscope. (There will be a quiz on \_\_\_\_\_.)
