

Lesson 7: Mystery Substances

OPENER

- ❖ This is an image of something seen under the microscope. In your notebook, draw and describe what you see on the screen.

- ❖ What do you think this substance might be?

Lesson 7: Mystery Substances

1. Focus on and draw each of the 4 items at your table. Label each drawing, and next to each one write notes about things you noticed.

2. Try to identify the mystery substance from the Opener. What evidence do you have that you are correct?

Lesson 7: Mystery Substances

HOMEWORK

- ❖ Study your microscope study guide and the procedures for focusing the microscope.
(There will be a quiz on _____.)
